Tobey Bassoff of DPS came to talk to the committee about the selection process for the next Principal of Steck. This is the summary of her words.

- She feels there is a strong-seeded candidate in current AP M.E.
- It can be a two-part process. (1) DPS surveys the Steck community to see if they would like to open the pool to other candidates in addition to current AP. M.E. (2) If the community wants an open pool in which to choose, then DPS will look for other candidates.
- This decision based on community feedback (survey) will be announced at the next CSC meeting on Jan 9. The community had one week to return the survey.
- At this point a recommendation will be made to the CSC committee about how to proceed.
- DPS Superintendent has final say on all decisions for hire.
